

«We compete our horses in Combined Driving Events in the Florida winter circuit. This year I won the United States Equestrian Federation (USEF) Pony Pair Preliminary Championship.

I am also now a member of the USEF developing drivers group which means that I get free lessons and free coaching from highly qualified coaches.

I am driving two Fjord mares that I bred and trained myself. I owned both the mother and sire of my competition horses. Not many people compete with home bred and home trained horses of any breed at these levels.

Currently I have 6 Fjords that have competed successfully in North America in Combined Driving and Pleasure Driving events. »
